

Education

- 2022–2027 **Princeton University, PhD in Economics**
Interests: Macroeconomics, Industrial Policy, Environmental Economics.
Courses: Econometric Theory, Macroeconomic Theory, Microeconomic Theory, Industrial Organization, Financial and Monetary Economics.
Teaching: PhD-level Macroeconomics.
- 2020–2021 **London School of Economics, MSc, Obtained with Distinction., Econometrics and Mathematical Economics (EME)**
Relevant coursework: Advanced Microeconomics, Advanced Macroeconomics, Econometric Analysis, Public Economics. Rank: 2/36.
- 2018–2021 **Institut Polytechnique de Paris, ENSAE, B.S. and MSc, Economics and Statistics, top 2%**
Relevant coursework: Statistics, Probability Theory, Functional and Convex Analysis, Optimization, Econometrics, Microeconomics, Macroeconomics, Time Series, Game Theory, Finance, Machine Learning.
- 2018–2019 **Université Paris-Saclay, B.S., Applied Mathematics, Summa Cum Laude**
Relevant coursework: Theory of Differential Equations, Numerical Analysis, Probability modeling, Differential Calculus and Optimization.
I was the only ENSAE student to simultaneously complete this B.S. alongside my B.S. at ENSAE.

Work Experience

- Feb. 2025 **Graduate Teaching Assistant, Princeton University, Princeton,**
- May 2025 PhD first-year Macro sequence. Topics: Macro-Finance, Heterogeneous Agents Macro, Inequality.
- Oct. 2024 **Research assistant in Macroeconomics, Princeton University, Princeton,**
- Now As a research assistant for Prof. Moritz Lenel, I investigate the implications of displacement risks faced by innovators for the properties of growth.
- Nov. 2022 **Research assistant in Macroeconometrics, Princeton University, Princeton,**
- Aug. 2024 As a research assistant for Prof. Mikkel Plagborg-Møller, I assessed the econometric properties of PCA (Principal Component Analysis) for macro time series, and I ran estimation methods for heterogeneous agents models.
- Sept. 2021 **Fellow in Economics, Collège de France, Paris,**
- July 2022 Growth and Innovation. Empirical studies of Mergers & Acquisitions' impact on innovation.
- Nov. 2020 **Research assistant in Economics, International Growth Center (IGC), London,**
- Apr. 2021 Development Economics. Leveraged micro-level datasets to analyze the determinants of trust in medical science. Co-authored a paper published in Nature on the incentives for Covid-19 vaccination in developing countries

Conferences and Seminar Presentations (as a presenter)

- 2025 Lindau Nobel Laureate Meetings for Economics.
- 2024 AEA ASSA 2024, Insead-College de France joint seminar.

Grants, Awards and Scholarships

- 2026-2017 Griswold Center for Public Policy (GCEPS) Graduate Fellow
- 2025 PECS Scholar at Princeton's High Meadows Environmental Institute.
- 2025 **Data-Driven Social Science - Princeton:** Small-Scale research grant for *Exchange Rationing as Industrial Policy*, co-authored with Victor Degorce.
- 2024 1 of 4 Princeton students awarded a Program for Research on Inequality grant (\$3,600).
- 2021-2022 Exchange Year Scholarship, awarded to ENSAE's best academic study abroad projects.
- 2020-2021 Scholarship for LSE's MSc EME.
- 2020-2021 Member of Goodenough College
- 2018-2021 Excellence Scholarship from the OCP Group Foundation covering college tuition fees and living expenses. This scholarship is granted to top Moroccan students.
